Commissioner:

In compliance with the duty of disclosure under 37 CFR §§ 1.56, 1.97 and 1.98, and in accordance with the provisions in the Manual of Patent Examining Procedure §§ 609 and 707.05(B), enclosed with the electronic filing of this Information Disclosure Statement ("IDS") is an IDS form (PTO Form SB/08a) listing references that are known to applicant. In accordance with 37 C.F.R. 1.98(a)(2), only "pdf" copies of references other than U.S. patents and U.S. published applications are enclosed with the electronic filing of this Information Disclosure Statement ("IDS").

It is respectfully submitted that this IDS filing is made during one of the periods described in 37 CFR § 1.97(d); a statement under 37 C.F.R. § 1.97(e)(2) and the fee set forth in § 1.17(p) are included herewith; the Issue Fee for the above-identified application is also being filed concurrently herewith.

It is respectfully stated, pursuant to 37 C.F.R. § 1.97(d)(1) and 37 C.F.R. § 1.97(e)(2), that no item of information contained in this IDS was cited in a communication from a foreign patent office in a counterpart foreign application, and, to the knowledge of the person signing this certification after making reasonable inquiry, no item of information contained in this IDS was known to any individual designated in § 1.56(c), more than three months prior to the filing of this IDS.

It is respectfully submitted that some of the listed references (for example, U.S. Patent Document Reference No. 4 and Non-Patent Literature Document Reference No. 1 listed on the IDS form (SB/08a) enclosed with the electronic filing of this IDS) are patents or co-pending U.S. patent applications, as the case may be, that have been or will be commonly assigned to the entities to which the above-referenced U.S. patent application has been or will be assigned.

The reference listed as Non-Patent Literature Document Reference No. 1 is a continuation application of the reference listed as U.S. Patent Document Reference No. 4, which is the Patent that issued for a previously-disclosed reference that was listed as U.S. Patent Application No. 09/684,861 (Attorney Docket No. PSTM0024) on an IDS filed for the above-identified application that was stamped as received on December 10, 2001 by the U.S. Patent & Trademark Office; the Preliminary Amendment for the reference listed as Non-Patent Literature Document Reference No. 1 is included with the document attached for that reference.

It is respectfully submitted that some of the listed references (for example, U.S. Patent Document Reference Nos. 1-3; and Non-Patent Literature Document Reference No. 2 listed on the IDS form (SB/08a) enclosed with the electronic filing of this IDS) were cited by Office Actions issued for U.S. patent applications that have been or will be commonly assigned to the entities to which the above-referenced U.S. patent application has been or will be assigned.

It is respectfully submitted that some of the listed references (for example, Non-Patent Literature Document Reference Nos. 3-4 listed on the IDS form (SB/08a) enclosed with the electronic filing of this IDS) are Office Actions issued for U.S. patent applications that have been or will be commonly assigned to the entities to which the above-referenced U.S. patent application has been or will be assigned.

While this Information Disclosure Statement, and the references and documents cited in the IDS form(s) (SB/08a) enclosed with the electronic filing of this IDS may be "material" pursuant to 37 CFR § 1.56, submission of this IDS and citation of the references and documents listed in the three IDS form(s) (SB/08a) enclosed with the electronic filing of this IDS are not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists.

It is respectfully requested that the listed references and documents be considered in the examination of this application and identified on the list of references cited on the patent issuing for this application. Applicant also requests that an initialed copy of the IDS form(s) (SB/08a) enclosed with the electronic filing of this Information Disclosure

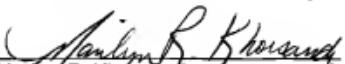

Statement be entered in the application file and returned to Applicant with the next communication from the office in accordance with MPEP §609.

Section 2. FORM SB/08a

A list of patents and publications is set forth on the IDS form(s) (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement.

Respectfully submitted,
